

## **Letter to my father / Brief an meinen Vater**

**24. January 2012 / 24.1.2012**

**Dear Dad**

**I know you probably have to suffer and die soon. Please do not think I would have forgotten you. You have done a very good job as a father. Thank you!**

**Some years ago I had a special experience. It was something like an experience of God. Since then (2001) I'm going to walk with God and fulfills a task for him, here in Biel. It is very beautiful, to be allowed to work for God! Much nicer than to earn the money for the women.**

**We can not see us before you go, but I hope we meet afterwards. Dying leads either to death or then it goes on to the "eternal life". I will go there, I know already. Maybe you're already there then, with your father and your mother?**

**I love you!**

**Patrick**
